

Tariffs Samples and Tests

Monopol Colors makes a charge for preparation of samples, quality assurance monitoring and written reports according to following rates. All amounts are in Swiss francs (excl. VAT). Shipping costs such as courier costs will be charged additionally.

Sample plates

Plain colors	per color	150.--
Special effect colors	per color	250.--
Multilayer with visible layer-structure	per color	350.--

Standard samples: aluminium plates, format A6 or A5 (quantity 2 plates, format ca. A4 on request), spray application or bar coated. Other parameters are available on request.

New colors, other gloss degrees and reformulations

For primers, the color shades and gloss levels mentioned in the technical data sheets are valid. The RAL Classic color shades and the gloss levels defined in the technical data sheet apply as standard for top coats and one-coat paints. The reformulation of paints and lacquers (e.g. stoving to 2C-paints or for spray cans if not ordered with the batch supplied) is treated as a new color shade. The following formulation costs will be charged for orders of top coats and one-coat paints of less than 40 kg per color (base coat without hardener):

Plain colors	per color	95.--
Special effect-, mica, prismatic colors	per color	150.--
Other colors for primers	minimal quantity	200 kg

Liquid sample

Liquid sample per color	per kilogram	150.--
