Repair Spray

Competence from a Spray Can

Developed for practical use, child's play to use: shake can and spray the paint in the same quality, the same color shade and with the same gloss – done! With the 2C can, first activate the hardener by pressing the button. It has never been so easy to eliminate seams and scratches. **Order by 10 am today, take delivery tomorrow: telephone +41 56 484 77 77.**

Monopol Repair Spray
 Reduced overspray, no tendency towards sagging, good filling and covering power

1C one component spray **2C** two component spray **Content** 135 ml **Prices** All prices in Swiss francs CHF, plus VOC regulatory tax and VAT, subject to change.

* **Tip** It is best to order the spray together with a container of paint (contents will be removed from container which will be labelled accordingly). Without a paint order the contents have to be mixed separately, resulting in considerable extra cost.
